

# Want to Save Dogs when the Weather Heats Up?

Then get your copies of RedRover's lifesaving "My Dog is Cool" fliers. Use this form to order your FREE flier starter pack.

Warm weather can literally be a killer for a dog left inside a car. When it's 85 degrees outside, the temperature inside a car — even with the windows cracked — can soar to 102 degrees in 10 minutes, and can reach 120 degrees in just half an hour.

When it's hot outside use these educational fliers to let pet owners know their dogs may be at risk if left in the car on a warm day. Learn more at: MyDogIsCool.com.

Help us spread the word: It's just not cool to leave a dog in a hot car!
